Green FIB

# The Role of Banks in Driving the Green Transition

*Main Challenges and Opportunities*

*Faculty of Economy, University of Tirana, 26.06.2025*

Co-funded by the  
European Union

- *ESG integration into lending decisions*
- *Sustainable loan products*
- *Role of the Bank of Albania and other regulators*
- *Financial Statements - challenges ??*

### *Round Table Discussion Questions:*

- What are the main barriers for banks towards green lending?
- How can banks develop commercially viable green financial products?
- What role do regulators play in incentivizing green finance?
- What is the impact of green bonds and sustainability-linked loans?
- What are the main strategies for optimizing the impact on financial statements?
